

tesseract_collision
/include/tesseract_collision
/bullet/tesseract_compound
_compound_collision_algorithm.h

```
graph BT; A["tesseract_collision  
/src/bullet/tesseract  
_collision_configuration.cpp"] --> C["tesseract_collision  
/include/tesseract_collision  
/bullet/tesseract_compound  
_compound_collision_algorithm.h"]; B["tesseract_collision  
/src/bullet/tesseract  
_compound_compound_collision  
_algorithm.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a header file box (shaded gray) containing the path 'tesseract_collision /include/tesseract_collision /bullet/tesseract_compound _compound_collision_algorithm.h'. Below it are two source file boxes. The left box contains 'tesseract_collision /src/bullet/tesseract _collision_configuration.cpp' and the right box contains 'tesseract_collision /src/bullet/tesseract _compound_compound_collision _algorithm.cpp'. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

tesseract_collision
/src/bullet/tesseract
_collision_configuration.cpp

tesseract_collision
/src/bullet/tesseract
_compound_compound_collision
_algorithm.cpp
